SKILLS

- Public Speaking
- Interpersonal Skills
- Creative
- Analytical Thinking
- Problem Solving

INTERESTS & ACHIEVEMENTS

- React – The Complete Guide (May 2026-Present) - Udemy
 - Video tutorial and project-based learning, teaching the fundamentals of React development.
- Figma UI UX Design Essentials (June 2026-Present) - Udemy
 - Video guides, teaching essentials in website design.
- Invited to speak at my former secondary school, sharing my journey into IT and encouraging students through the Girls in STEM club.
- Mending or upcycling clothes, repurposing old and second-hand jewellery to make new pieces, as sustainability is a big personal goal.
- Watercolour painting, sketching and knitting.
- Online strategy games, sudoku and board games.

EXPERIENCE

STEM ASPIRE MENTEE | DELL TECHNOLOGIES | November 2025 - April 2026

Participated in Aspire Mentorship program partnered with a full stack developer to gain a deeper understanding of industry.

- Worked on creating a Movie Website surrounding back and front-end development using TMDB.
- Learning Python and Flask.
- Gained knowledge of the day-to-day tasks of a software developer through shadowing mentor.
- Participated in networking events.

PERSONAL PROJECTS

Further details found in [portfolio](#).

- Portfolio Website- Used Flask to create templates and Bulma CSS framework to style, hosted on PythonAnywhere. Link: [Portfolio Repository](#)
- Cocktail Website- Used JavaScript to make API calls to create detailed website, hosted on GitHub pages. Link: [Cocktail Website Repository](#). Website Link: [Cocktail Website](#).
- Movie Website- Currently developing a movie website using TMDB's open-source API and Flask. Link: [Movie Website Repository](#)

GIRLS IN STEM PROGRAM | TECHNOVATION | 2021 - 2022

Participated in a Girls in STEM technological entrepreneurship program where each team would make and market an app while being mentored.

- Worked as part of a team to design a concept for a women's travel safety app that allows users to rate hotels, Airbnbs, and hostels based on key security features, including CCTV, well-lit hallways, and staff availability.
- Learned how to design an app while prioritising UX/UI design and create the foundation of App through MIT app inventor.
- Completed Business and Action plans.
- Conducted SWOT analysis and market research along with analysing competitors.
- Presented to the judging panel etc.

JEWELLERY MAKER | GALANTA JEWELLERY | 2019 - 2020

Crafted handmade necklaces, bracelets and earrings for a local business, based on provided samples or a set of specifications and general design concepts.

- Through crafting process, cultivated meticulous eye for detail and error spotting.
